

MANAGEMENT OF RADIOACTIVE WASTES ON THE WWR-M REACTOR

V. I. Slisenko, N. I. Valkovska,

V. N. Domnikov, V. S. Prokopenko, Yu. S. Stryuk

The management of radioactive wastes on WWR-M reactor of the Institute for Nuclear Research has been analyzed. Data of the formation of the radioactive waste, their general characteristics, the place for their storage and ways of increasing the radiation safety while handling with radioactive wastes are presented.
